

RED RIVER PAPER

Photoshop and Photoshop Elements Greeting Card Templates Before Getting Started

These templates are PSD (Photoshop Document) files. They work in Photoshop and Photoshop Elements. If you double-click a PSD, it should open in Photoshop.

The templates are named for card size and image orientation.

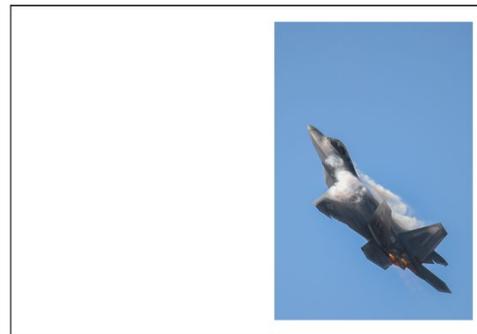

Name

Ps 7x10-horizontal-image

Ps 7x10-vertical-image

Horizontal Image Card Example

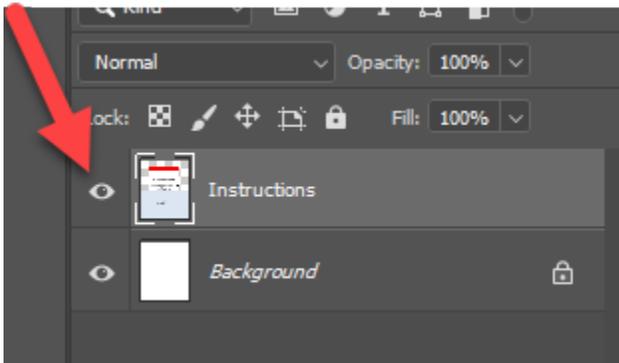

Vertical Image Card Example

Each template has an INSTRUCTIONS LAYER. Study it carefully as it contains important and helpful information.

www.redriverpaper.com/cardhelp for in-depth card setup and printing resources

When you are ready to begin, HIDE THE INSTRUCTIONS LAYER.

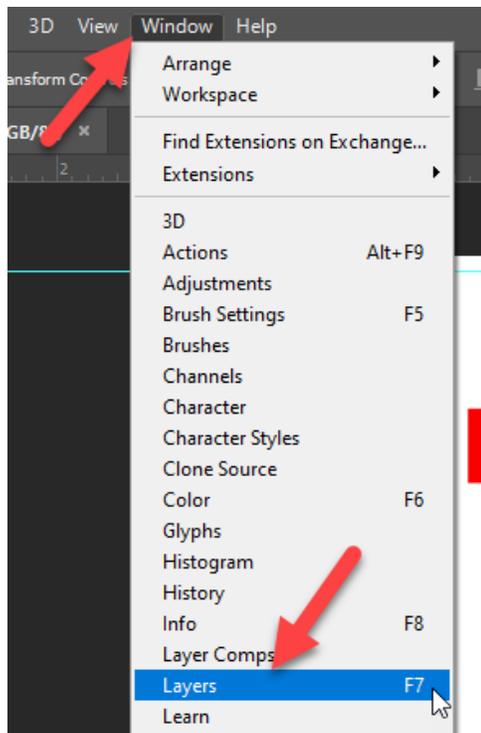

To hide the layer, locate the Layers Pallet and click the eyeball icon next to the layer.

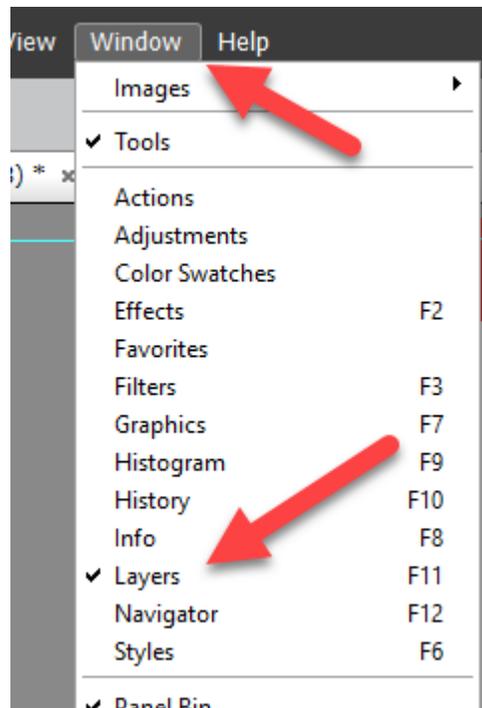

Do not see the Layers Pallet??

If you do not see the layers pallet on your screen, verify it is active using the examples below. If you do not know what the layers pallet is, please consult the Adobe help resources or go to [youtube.com](https://www.youtube.com) and search “what are Photoshop layers”.
