

39Ib. Sheer Translucent Paper

39Ib. Red River Sheer is a translucent inkjet paper. It's opaque when held up and see-thru when placed on top of another image. Sheer is coated on one side for photography printing and sharp text. Great for greeting card, map inserts and more.

- translucent inkjet paper
- printable on one side
- acid free coating and stock
- not recommended for pigmented inks

Item	Size	Sheets	Price
8380	8.5x11	25	\$9.38

Metallic Inkjet Paper

Red River Metallic is an inkjet paper with actual metallic coating. You can use this paper to create stunning effects and special design applications. When you print on its reflective silver surface with color images, the results replicate metallic inks. Or, print black ink and the results are dramatic shades of reflective light.

- metallic inkjet paper
- brilliant color reproductions
- use for special design and photography effects
- not recommended for pigmented inks (Epson 2200/2000P)
- allow extended drying time
