

Profile Usage Instructions

Red River 68lb. UltraPro Satin Epson 1280

Thank you for using Red River UltraPro Satin.

For information on how to use color profiles, read Red River's "Color Profile Usage" and Epson's "How to use ICC profiles".

When you install the profile, it will show up in Photoshop's profile menu as:

RR UltraPro Satin Epson 1280 1440dpi.icm

Below are the required printer driver settings for Red River's UltraPro Satin/Epson 1280 profile. You must make sure all of the settings are correct to achieve optimum print quality.

| Parameter | Required Setting |
|------------------|----------------------------------|
| Paper Setting | Epson Premium Glossy Photo Paper |
| Quality | 1440dpi |
| Color Management | NO Color Adjustment |
| High Speed | OFF |
| Edge Smoothing | OFF |

Special Notes:

High Speed – Turning high speed on should not effect the color balance or quality of the image

Edge Smoothing – Like high speed, you may experiment with this setting in the ON position

Refer to www.redriverpaper.com/profiles for any updates. Technical support for color profiles is limited to the documents included in the profiles section of www.redriverpaper.com
