Introduction

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

Recommended Printer Driver / Property Settings

Canon

Media Type:	Photo Paper Plus Semi-gloss
Print Quality:	Quality Options – High Level 2
Color Correction:	None

Epson

Media Type - Pick the one you have available in your printer driver.	Premium Luster Photo Paper Ultra Premium Photo Paper Luster Premium Luster Photo Paper (260)
Recommended Print Quality	Level 4 or 1440dpi / Photo
Color Mode	Off (No Color Adjustment)

HP

Paper Type:	HP Advanced Photo Papers
Print Quality:	Best
Color Management	Application Managed Colors

 Printer Driver Hints

The name of the paper you are using will not be listed in the media settings drop down menu in the printer driver. That menu only has the names of manufacturer papers.

Do not use the printer driver's "Preview before printing" feature. It can interrupt the color management process.
