

Profile Usage Instructions

62lb. River Linen Epson 2200

For information on how to use color profiles, read Red River's "Color Profile Usage" and Epson's "How to use ICC profiles".

When you install the profile, it will show up in your ICC aware application (ex. Photoshop) profile menu as:

River Linen 62lb Epson 2200 Enhanced Matte

Below are the required printer driver settings for this profile. You must make sure all of the settings are correct to achieve optimum print quality.

| Parameter | Required Setting |
|------------------|--|
| Paper Setting | Enhanced Matte Paper |
| Quality | 1440dpi or Best Photo |
| Color Management | Set Color Adjustment to "No Color Adjustment" In some driver versions, you have to click ICM under color management, then select No Color Adjustment in the ICC Profile menu. |

Special Notes:

In order to use profiles, you must turn off your printer color management! See above for how to accomplish this task.

The profile must be selected in the Print Space of Photoshop's print with preview screen.

Refer to www.redriverpaper.com/profiles for any updates. Technical support for color profiles is limited to the documents included in the profiles section of www.redriverpaper.com
