

## Profile Usage Instructions

### Red River 66lb. Polar Satin Epson 7600/9600 UltraChrome

For information on how to use color profiles, read Red River's "Color Profile Usage" and Epson's "How to use ICC profiles". These are available for download at [www.redriverpaper.com/profiles](http://www.redriverpaper.com/profiles)

When you install the profile, it will show up in Photoshop's profile menu as:

#### **RR Polar Satin Gloss Ep7600 1440 HS ON**

Below are the required printer driver settings for the Red River Polar Satin/Epson 7600/9600 profile. You must make sure all of the settings are correct to achieve optimum print quality.

<b>Parameter</b>	<b>Required Setting</b>
Paper Setting	Epson Premium Luster Photo Paper
Quality	1440dpi
Color Management	Click ICM then Off (No Color Adjustment)
High Speed	ON
Edge Smoothing	OFF

#### **Special Notes:**

High Speed – Turning high speed off should not effect the color balance or quality of the image

Edge Smoothing – Like high speed, you may experiment with this setting in the ON position

Refer to [www.redriverpaper.com/profiles](http://www.redriverpaper.com/profiles) for any updates. Technical support for color profiles is limited to the documents included in the profiles section of [www.redriverpaper.com](http://www.redriverpaper.com)

Also try using the **Atkinson profiles** for Premium Luster Paper available at the Epson website. The Atkinson profiles are highly tuned and work well with Red River Paper.
