RED RIVER PAPER™

Profile Usage Instructions

Red River 60lb. Polar Matte
Epson 7600/9600 UltraChrome

PHOTO BLACK INK INSTALLED

For information on how to use color profiles, read Red River's "Color Profile Usage" and Epson's "How to use ICC profiles". These are available for download at www.redriverpaper.com/profiles

When you install the profile, it will show up in your ICC aware application (ex. Photoshop) profile menu as:

RR 60lb PolMat E7600 1440PK

Below are the required printer driver settings for this profile. You must make sure all of the settings are correct to achieve optimum print quality.

Parameter	Required Setting
Paper Setting	Enhanced Matte Paper
Quality	1440dpi
Color Management	Click ICM then Off (No Color Adjustment)
High Speed	ON
Edge Smoothing	OFF

Special Notes:

High Speed – Turning high speed off should not effect the color balance or quality of the image
Edge Smoothing – Like high speed, you may experiment with this setting in the ON position

Refer to www.redriverpaper.com/profiles for any updates. Technical support for color profiles is limited to the documents included in the profiles section of www.redriverpaper.com

Also try using the **Atkinson profiles** for Enhanced Matte Paper available at the Epson website. The Atkinson profiles are highly tuned and work well with Red River Paper.
