

Printer Color Profile Instructions

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

Printer: Epson 7890 / 9890

Some Hints

** Learn more about handing and using heavy weight inkjet papers at:

<http://www.redriverpaper.com/feed>

** The name of the paper you are using will not be listed in the media setting drop down menu in the printer driver. That menu only has the names of manufacturer papers.

** Do not use the printer driver's "Preview before printing feature". It can interrupt the color management process.

Be Someone's Inkjet Hero

Your prints are sure to wow friends, family, and colleagues. Of course, you can't share all your secrets when they ask why your prints look so great. **But you can be their Inkjet Hero and introduce them to Red River Paper.** We will happily answer their questions about papers, picking the right printer, and printing with no obligation. Thank you for your referrals - they make all the difference!

If you have any thoughts or comments about your last order, please share them with me by replying to this email.
