

Profile Usage Instructions

Red River 62lb. UltraPro Satin Epson R800

For information on how to use color profiles, read Red River's "Color Profile Usage" and Epson's "How to use ICC profiles". These are available for download at www.redriverpaper.com/profiles

When you install the profile, it will show up in Photoshop's profile menu as:

RR UltraPro Satin EpR800 Best Photo

Below are the required printer driver settings for the Red River UltraPro Satin/Epson R800 profile. You must make sure all of the settings are correct to achieve optimum print quality.

| Parameter | Required Setting |
|------------------|--|
| Paper Setting | Epson Premium Luster Photo Paper |
| Quality | Best Photo |
| Color Management | Click ICM then Off (No Color Adjustment) |
| High Speed | ON |
| Edge Smoothing | OFF |

You can use this profile with or without the Gloss Optimizer

Special Notes:

High Speed – Turning high speed off should not effect the color balance or quality of the image

Edge Smoothing – Like high speed, you may experiment with this setting in the ON position

Refer to www.redriverpaper.com/profiles for any updates. Technical support for color profiles is limited to the documents included in the profiles section of www.redriverpaper.com
