

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

Color / Intensity Setting: Manual > Matching > None

Print Quality: High

Media Type Setting Recommendations

How to Install Profiles – www.redriverpaper.com/installprofiles

How to Use Printer Profiles – www.redriverpaper.com/useprofiles

The name of the paper you are using will not be listed in the media setting drop down menu in the printer driver. That menu only has the names of manufacturer papers.

Do not use the printer driver's "Preview before printing feature". It can interrupt the color management process.

Be Someone's Inkjet Hero

Your prints are sure to wow friends, family, and colleagues. Of course, you can't share all your secrets when they ask why your prints look so great. But you can be their Inkjet Hero and introduce them to Red River Paper. We will happily answer their questions about papers, picking the right printer, and printing with no obligation.

Thank you for your referrals - they make all the difference!
