

Profile Usage Instructions

Red River UltraPro Satin Canon i9100, S900, S9000, S820, S820D

Thank you for using Red River UltraPro Satin.

For information on how to use color profiles, read Red River's "Color Profile Usage for Canon"

When you install the profile, it will show up in Photoshop's profile menu as:

RR UltraPro Satin Canon i9100/S9000/S900.icm

Below are the required printer driver settings for this profile. You must make sure all of the settings are correct to achieve optimum print quality.

Parameter	Required Setting
Paper Setting	Photo Paper Plus Glossy
Quality	Fine
Color Adjustment	Manual – Print Type "None"

Special Notes:

DO NOT USE Canon's Print with Preview function when using profiles! Only use Photoshop's print with preview.

Refer to www.redriverpaper.com/profiles for any updates. Technical support for color profiles is limited to the documents included in the profiles section of www.redriverpaper.com
