

## Printer Color Profile Instructions

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

**Printer:** Epson WF Series (Workforce)

**Manual Color Adjustment Matching:** None

Paper	Media Setting Recommendation
68lb. UltraPro Gloss	Ultra Premium Photo Paper Glossy
66lb. Arctic Polar Gloss	Ultra Premium Photo Paper Glossy
60lb. Pecos River Gloss	Premium Photo Paper Glossy
68lb. UltraPro Satin	Premium Photo Paper Semi-Gloss
66lb. Arctic Polar Satin	Premium Photo Paper Semi-Gloss
66lb. Polar Pearl Metallic	Ultra Premium Photo Paper Glossy
Premium Matte Papers	Premium Presentation Paper Matte
60lb. Polar Matte	Premium Presentation Paper Matte
River Linen	Premium Presentation Paper Matte
Paper Canvas	Premium Presentation Paper Matte

### Some Hints

The **name of the paper you are using will not be listed in the media setting drop down menu in the printer driver**. That menu only has the names of manufacturer papers.

Turn on your printer's Prevent Paper Abrasion feature when using heavy weight papers.

Do not use the printer driver's "Preview before printing feature". It can interrupt the color management process.
