

## Printer Color Profile Instructions

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

**Printer:** Canon ip4300 Series

### Setting Recommendations

**Manual Color Adjustment Matching:** None

**Print Quality:** High

Paper	Media Setting
UltraPro Gloss	Photo Paper Plus Glossy II
UltraPro Satin	Photo Paper Plus Glossy II
Pecos River Gloss	Photo Paper Plus Glossy II
Premium Matte	Matte Photo Paper
River Linen	Matte Photo Paper
GreenPix	Matte Photo Paper
Aurora Art White	Matte Photo Paper
San Gabriel SemiGloss Fiber	Photo Paper Plus Glossy II

### Some Hints

Turn on your printer's Prevent Paper Abrasion feature when using heavy weight papers.

The name of the paper you are using will not be listed in the media setting drop down menu in the printer driver. That menu only has the names of manufacturer papers.

Do not use the printer driver's "Preview before printing feature". It can interrupt the color management process.
