RedRiverPaper®

Printer Color Profile Instructions

Color profiles are data files that contain a description of how a particular paper, ink, and printer create all colors, shades, and densities. Using a profile will result in more accurate and consistent output.

Paper: Pecos River Gloss – all weights and versions

Printer: PIXMA ip4700, iP3600, iP4600, MP620, MX860, MX870, and other Canon printers.

Setting Recommendations

Media Setting:	Photo Paper Plus Glossy II
Print Quality:	1 or High
Color Correction:	None

Some Hints

Turn on your printer's Prevent Paper Abrasion setting when 86lb. Pecos River Gloss Duo or 96lb. Pecos River Gloss Magna. Go to www.redriverpaper.com/feed for more information.

The name of the paper you are using will not be listed in the media setting drop down menu in the printer driver. That menu only has the names of manufacturer papers.

Do not use the printer driver's "Preview before printing feature". It can interrupt the color management process.

More Profile Information

Go to www.redriverpaper.com/profiles for help, information, and more.
